**Subject:** Re: ...clean-up of ...Gold King Mine Release...Garner Environmental Services

Hello,

The US EPA has prepared the following information resource:

EPA is committed to working closely with response agencies and state and local officials to ensure the safety of citizens, respond to concerns and to evaluate impact to water contaminated by the Gold King Mine Release. EPA is sharing information as quickly as possible with the public as experts work to evaluate any effects the spill may have on drinking water, public health, agriculture, fish and wildlife.

Please see our website for the latest information: <http://www2.epa.gov/goldkingmine>

Regular updates will be posted as they are available.

EPA Hotline: 844-607-9700 (toll-free)

**Subject:** Garner Environmental Services

Garner Environmental is an emergency response company that has worked on projects all over the U.S. I am inquiring as to who I could contact to find out if our services could be used for the remediation and clean-up of the Animas River incident. I have attached a brochure outlining our services. Please feel free to contact me either by cell or email.

Thank you,

**Josh Lynn**
